SOFT SKILLS

- Fast Learner
- Teamwork Mentality
- Critical Thinking
- Problem Solving
- Feedback Craver
- Fast Adaptability

HARD SKILLS

- Visual Scripting
- Modular Workflow
- Prototyping
- Documentation
- 3D Modeling
- PBR/PBL

TOOLS

- Unreal Engine
- Unity
- Git
- Draw.io
- Figma
- Photoshop
- Miro
- Machinations.io
- Maya
- Substance Pack

LANGUAGES

- Italian (Native)
- English (C1)
- Spanish (A1)
- Japanese (A1)

EDUCATION

Skyup Academy
2024 - 2025
Master's Degree Env. for Videogames

Event Horizon School
2022 - 2025
Master's Degree Game Design

PROFESSIONAL PROJECTS

TECHNICAL LEVEL ARTIST - A.B.Y.S.S.O.S. *May 2026 - Present*

A Co-op Horror Game in Unreal Engine 5 - In Development

- Directing the art and sound department for a co-op horror game in Unreal Engine 5.
- Building and dressing levels from blockout to final result, including lighting and mechanics.

TECHNICAL LEVEL ARTIST - Negative Edge *September 2025 - July 2026*

A fast-paced TPS Arena inspired by black, white and blood - Returnal

- Designed and built the canyon blockout around dashing, grappling, wall running and exploration.
- Tested the level metrics to establish the correct distances for jumps and dashes.
- Adapted the map to scope changes.
- Modeled the boss arena in Maya and finalized the area with textures, props and interactable elements.
- Built the fortress as a landmark visible throughout the floating level.
- Supported the art department with guidelines and feedback on models, textures and shaders.
- Collaborated with the Design team to balance enemies, utility items and health/shield stations.
- Presented the game privately to publishers including Epic Games and Krafton at DevGAMM 2025 in Lisbon.

TECHNICAL LEVEL ARTIST - Golem Rumble *January 2026*

A Stylized Dueling Game - 6-Person Team

- Designed and built a Mayan-inspired arena during a one-week production cycle.
- Created modular architecture and final textures in Substance Designer.
- Led the art department and took care of lighting, shaders, textures and scene composition.
- Adjusted the arena layout to improve player movement.
- Designed the fifth-round transformation with different lighting to heighten tension.

2024I authorize the processing of my personal data contained in my CV in accordance with Legislative Decree 196/2003 and the GDPR (EU Regulation 2016/679)

PERSONAL PROJECTS

LEVEL ARTIST - The Cursed Mansion *June 2025*

A Psychological Horror Inspired by P.T and Hillhouse - Solodev Project

- Created spaces that merge the game's narrative beats and gameplay.
- Modeled and textured all architectural elements of the map.
- Prototyped Encouter Sequences and Sound Management.

LEVEL ARTIST - SELF *December 10 - 12/17 2024*

A Psychological Horror Inspired by Silent Hill and Predestination - Jam Project

- Crafted a fully playable environment inspired by Silent Hill and SOMA.
- Took care of the Level Design and Environment Art for the whole Level.
- Worked on lighting to guide the player's attention toward the intended path.
- Planned the game beats while coordinating with the group for implementation.
- Co-Designed the Core loop of the game.
- Co-Designed the Elevator Puzzle.

LEVEL DESIGNER - REMINISCENCE *01/03 - 02/03 2023*

A Dramatic Walking Novel that talks about Loss and Redemption. - Academic Project

- Planned the game flow, events and beats with specific instructions for the Art team.
- Designed lighting to reinforce the emotional intent and narrative mood of each stage of the level.
- Worked on the Narrative and Environmental Storytelling to craft an immersive experience.
- Worked on Voice Acting for the voice coming from the Radio.
- Placed interactable objects and Event Triggers.

LEVEL DESIGNER - In King's Memory *01/28 - 01/31 2023*

A Horror game with puzzles elements inspired by Resident Evil and Amnesia Series - Jam Project

- Pitched, documented, and designed the level using beats and a flowchart to define the game flow.
- Focused on affordances, voice acting, and lighting design to enhance player immersion and support the overall narrative tone.
- Created a quick blockout to assist the 3D artist in determining proportions and the required number of modular assets.
- Positioned enemies to maintain balanced tension without compromising player enjoyment or pacing.
